REPORT ON CORPORATE SOCIAL RESPONSIBILITY

Through our products and our passion, Aries continually demonstrates that we are a responsible corporate citizen, working hard to retain the delicate balance of nature and the development of communities where we work and grow.

PROVIDING ENVIRONMENTALLY SENSITIVE PRODUCTS

The Aries range of Chelated micronutrients is chemically inert. All our flagship brands contain no harmful ingredients and do not react with soil and water based elements. Moreover, we have shown further commitment to ensure that our products are environmentally safe by introducing next generation bio degradable chelates for the first time in India. This now ensures that our farmers have a choice of using 100% safe products on their crops with no residues and a favourable cost benefit ratio.

PROMOTING WATER SOLUBLE PACKAGING

Our flagship brand Chelamin and the entire bio degradable range of Chelates are packed in single dose, dissolvable sachets. This ensures that the product is delivered with no plastics or foil based packaging. We have thus moved beyond environmentally sensitive products, to include eco-friendly packaging for key brands.

SPREADING KNOWLEDGE

Aries formed the pioneer young farmer network within the Confederation of Indian Industry's Young Indians. This network engages 8000 farmer members, all below 40 years of age, in knowledge dissemination activities. The year's theme for the CII-Yi-Aries Agro farmer network was building a dialogue towards evolving a framework for Indian Good Agricultural Practices (Indo-GAP). Dr Rahul Mirchandani, Executive Director, served as the National Chairman for CII's Young Indians (2009-10) and is the architect of the Yi farmers net programme.

Over 175 knowledge dissemination activities were undertaken across 11 states impacting over 11000 farmers and 4000 rural children from agricultural communities. These events exposed farmers to best practices using study tours and workshops, connected them with Agricultural Universities and also educated Rural school students in over 65 secondary schools on latest agricultural practices that will help improve productivity and consequently improve the ecosystem of wealth creation in rural communities.

Specifically, the programs included **Uniconnect** – a structured lab to land programme that connects university faculty, researchers and students with young farmers, **Suryodaya**–farmers training in local areas and **Bal Krishak Sambodhan** sessions in rural schools – Guest lectures by experts to expose higher secondary school students to the latest agricultural methods making them 'future ready'.

We also conducted two very successful National **Agromax** conferences in Guwahati, Assam and in Hissar, Haryana. Together these two flagship events had close to 4000 young farmers in attendance and had a galaxy of over 40 speakers and involved CII's Young Indians, 5 State Governments, 9 Agricultural Universities and many agribusiness corporates.

COPING WITH CLIMATE CHANGE

Aries surveyed over 800 Yi-farmers net members and prepared a comprehensive document that captured ways in which Young farmers are affected by and coping with Climate Change. This report was prepared and submitted to The Climate Project for the United Nations Copenhagen Summit.

PHILANTHROPY

During the year under review, Aries Agro supported NGOs including the National Association of the Blind, Gujarat State Branch and Srishti Foundation, Andhra Pradesh. The support extended included Announcement Sound Systems in the School for blind students and funds to feed nutritious meals to thousands of elderly persons and children in the Kakinada District of Andhra Pradesh.

ENCOURAGING INNOVATION

Yi-Aries Agro farmers net has also begun an iterative process of identifying 10 farmers each year who have achieved superlative levels of productivity and documenting and evangelizing these innovative crop management methods as '**Farming Next Practices**'.

PROVIDING ADVISORY SERVICES

Farmers were also provided with commodity prices, crop advisories and weather alerts throughout the year using mobile phone text messages. In addition, using our analytical labs and mobile soil testing units, over 30,000 soil samples were analysed across the country and **soil health cards** issued to farmers at subsidized prices.

Aries has also signed an MoU with the Multi Commodity Exchange of India (MCX) to provide deferred live **commodity prices** over the Internet and also to participate in the **MCX Grameen Suvidha Kendra** (GSK) project. Aries has trained Post Masters at 768 India Post offices in the essentials of crop nutrition and the Post Masters are now information disseminators and booking agents for a select range of Aries specialty plant nutrients. The Post Office also collects and manages farmer queries and responses using the e-Post system.

CERTIFYING ESSENTIAL SKILLS

We have, in collaboration with CII's Young Indians, Multi Commodity Exchange of India (MCX) and KIIT University, Bhubaneswar, commenced work on piloting a **world class skills certification program** in the Agriculture sectors. These programs will take the form of short courses to train youth in rural areas the essential skill of grading and standardising agricultural output. Since mandis are currently using highly unscientific and adhoc methods to finalise the auction prices of agri output, the 'certified graders' will be regarded in the community as having the qualification and expertise to provide farmers with the right price and assist buyers in procuring standardized crop output. This will improve the employability prospects of youth involved in rural sectors, improve farmer price discovery and also plug a crucial skill gap that exists.
